

Team SPED's mission is to...

**ensure all students
have the pieces
in place to**

strive ~ commit ~ succeed!

The Schuyler Community School District's Department of Special Education is dedicated to meeting the unique needs of students with disabilities by providing a continuum of services and programs from early childhood through post-secondary for young adults. The department is responsible for screening, evaluating, identifying, and determining eligibility for students who may require special education and related services. Our goal is to provide services in a student's natural environment--these services may include accommodations, explicit instruction, physical and occupational therapy, speech therapy, vision and hearing services, school psychology, vocational experience, and assistive technology. With the parents, child/student, various professional providers and teaching staff working side-by-side, the child's/student's case manager will generate an Individualized Family Service Plans/Individualized Education Plans that a student will need to be a lifelong, productive citizen. Students are educated in age-appropriate environment with their general education peers to the greatest extent possible. Our District prides itself on its inclusive services, as well as the quality of its staff. Teachers, paraprofessionals, specialists and administrators function as a team in delivering a high quality program for your child!

Schuyler Community Schools, in partnership with parents, students, and the community, is committed to educate students to become skilled, knowledgeable and responsible citizens in a global society.
